

### Severe Weather on Campout

1. Severe Rain/Flooding
2. Severe Rain/Flooding • Never camp on low ground next to streams when rain is expected • If flooding occurs go to high ground • Stay away from streams, ditches, flooded areas • Adults should never drive thru flooded waters
3. Severe Thunderstorm/Lightning
4. Severe Thunderstorm/Lightning • Lightning can strike 10 miles from storm • Take shelter in a building or vehicle as soon as you hear thunder • Make sure you're not the highest object • Avoid water, open areas, isolated trees, picnic shelters or metal objects • If you're caught in an open field spread out 100 feet apart and crouch down (like leapfrog)
5. Tornadoes
6. Tornadoes • Get indoors to a closet or interior wall • If you're stuck outside get in a ditch or lay as flat as possible
7. Fires, Earthquake... Follow Den Leader Instructions
8. Staying Found • Anyone can get lost! Let's stay found! • Always stay with a buddy • Let an adult know if you and your buddy need to leave the group/camping area • Carry a whistle – 3 quick blows is the general distress call
9. If you think you are lost • STOP • Stay where you are. • How can you help others who are looking for you? • Watch for searchers looking for you • Plan how to stay dry and warm till you are found.

### ***Leave No Trace Principles for Kids:***

- Know Before You Go
- Choose The Right Path
- Trash Your Trash
- Leave What You Find
- Be Careful With Fire
- Respect Wildlife
- Be Kind To Other Visitors
